## Man On Control Of CIA Stalled

CPYRGHT

Washington, June 7 (UPI)—Senator

Dirksen (R., Ill.), minority leader, said today a proposal to enlarge the Senate's supervision over the a "state of suspended animation."

Dirksen announced that he and the Democratic leader, Senator Mansfield (D., Mont.), had informed President Johnson of the situation.

Although Dirksen declined to disclose the President's attitude, it was obvious the two leaders had talked to Mr. Johnson about a compromise by which CIA officials might be ordered to answer questions put to them by Senate Foreign Relations Committee members.
